TALK TO THE FACTORY

0492 003 899

CAMPBELLFIELD, VICTORIA • AUSTRALIAN BUILT

Same names. *New chapter.*

Network RV and Victory Caravans have joined the **JB Group** family of Australian caravan brands, and both are now built at our Campbellfield facility in Melbourne. JB Group has built **more than 40,000 vehicles over 14 years** across JB Caravans, New Age, Traveller and Paradise Motorhomes.

01 OFF-ROAD

02 TOURING

How we build them

NO TIMBER • NO ROT

01

One-piece composite roof

A single-sheet composite roof with **no joins across the span** — fewer seams, fewer places for water to find a way in.

02

Polyresin composite wall frame

Wall framing and inner skin in **polyresin composite (PRC)** — water and humidity resistant, so there is **no timber to rot**.

03

One-piece honeycomb floor

Seamless polypropylene honeycomb floor, **up to 40% lighter than 12mm plywood**, fully water-resistant and rot-proof.

Every van is *water leak tested* before it leaves the factory.

04

The last job on the line. Every Network RV and Victory caravan is water tested before it ships — because finding a leak in our factory beats you finding one on the Birdsville Track.
